---

## PLEASE READ CAREFULLY

The lots listed in this catalog will be offered and sold subject to the following terms and conditions:

1. The highest bidder acknowledged by the auctioneer shall be the buyer. In the event of any dispute between bidders, the auctioneer's determination shall be final.
2. New bidders who have not previously established credit must furnish satisfactory references well in advance of sale date, or send a deposit of 25% of their bids, applicable to purchases. Any portion of such deposit not used will be promptly refunded after sale. We reserve the right to require payment in full before delivery of merchandise.
3. We will execute your bids without charging a commission. These bids will be treated as limits. In general, we will start a lot at a small advance over the next to the highest bid. We will not accept bids from minors. Please sign your bid sheets.
4. California residents must pay appropriate sales tax. Postage and insurance will be added to invoices for lots to be mailed to successful bidders.

## Part 3

Part 3 of the Pradeau-Bothamley auction sale is tentatively planned for November 1971. Right now superb lots are being assembled for this super sale which will again feature many extreme rarities.

# SUPERIOR SERVICES FOR SELLERS

HAVE YOU CONSIDERED DISPOSING OF  
ANY PORTION OF YOUR COLLECTION?

SUPERIOR offers several methods: one of which may be the most suitable means of realizing the best possible results commensurate with today's market. We offer the following:

**PUBLIC AUCTION** — An eminently satisfactory way of obtaining current market prices. If you wish to sell at auction, please write describing in detail your material. Upon hearing from us you may confidently send your collection for appraisal. Your property, expertly lotted to best advantage, will then be attractively presented in the catalogue of one of our future auctions. Normally our only charge is a 20% commission of the realized gross, and full and final settlement will be in your hands one month after sale date. If, due to value or other reasons, shipping to us is impractical, we will travel to inspect and appraise your important property.

**PRIVATE TREATY** — Some properties, due to their nature, sell better by private sale. With SUPERIOR'S large and active retail and mail order clientele, we are in an excellent position to bring your material to the attention of serious buyers.

**DIRECT SALE** — We are always in the market for suitable material for our customers. We can offer immediate cash for your collection or individual rare items.

Doctor Alberto Francisco Pradeau could well be the world's leading authority on Mexican coinage.

Born in Guaymas, Sonora, Mexico in 1894, he migrated to the United States at the age of 16 in 1910. It was about this time he became interested in the history of the coinage of Mexico. When visits to local libraries produced negative results he corresponded with the Mexican Government only to discover that little or no information was available. With no reference sources available, Dr. Pradeau methodically and painstakingly researched and authenticated the many Mexican coins he was slowly acquiring.

He graduated with a degree of Doctor of Dental Surgery from the University of Southern California in 1923. By this time his extensive knowledge of Mexican coinage culminated in a series of authoritative books embracing literally every phase of Mexican numismatics from Colonial times to the present. A void had been filled and Dr. Pradeau had acquired a reputation as the leading expert on Mexican coinage.

In addition to his many books he has authored over 150 articles pertaining to Mexican numismatics in various publications. He is an active and corresponding member of 24 numismatic societies in the United States, Mexico, South America, Europe and the Philippines, as well as an Academician of the Historical Academy of Mexico and of the Royal Academy of History of Spain. He has been conferred with many honors and awards. The learned Doctor is also the historian of the State of Sonora having written a number of books on the subject.

His collection represents the accumulation of over half a century, each coin having been owned, pridefully held, and diligently researched by a man who had no peers in his field.

### ANTIQUITIES

This fine collection of Egyptian antiquities was formed by the Danish born, internationally known Oil Geologist, Alvin T. Schwennesen. Among his many discoveries was the fabulous Signal Hill Field in 1921, in Long Beach, Cal. In 1946 he was sent to Egypt by the Socony Vacuum Oil Co. with headquarters in Cairo. Here, along with a series of oil and gas discoveries, he became vitally interested in the art and antiquities of the Ancient Nile Valley.

He returned from foreign service to make his home in California in 1949. He died in 1962. Items from his collection have been acquired for this auction.

- 1 **Six Flint** and Jasper prehistoric artifacts found in the Egyptian Fayum. The age ranges from the Solutrian (c. 9000 B.C.) to the Amratian Age (c. 6000 B.C.). In the older texts, he once lived as a human, and was killed by his brother, Set, but his wife, Isis, and his son Horus, gave him proper ritual burial, and he gained eternal life. The whole aim of mummification is based on this ritual. The deceased were always called an "Osiris." These figurines were often used on the home altar. He is usually depicted as a mummy wearing the Atif Crown of feathers and the White or Hezt, Crown of Upper Egypt. Green patina. Fine condition. **PHOTO** (\$40.00–\$60.00)

### SCARABS

These are the most sacred Amulets of Ancient Egypt. They were linked with the God of Creation, Khepera. From earliest times the beetle was seen to roll a ball of manure which when rolled into the sun collected dust and clay. A minute egg had been laid in the ball, unseen by the observer. In the warm rays of the sun, the egg hatched and a beetle came forth. To the priests, the ball was a symbol of the sun that brings forth life from clay. Thus the beetle, called by the Greeks a Scarabus, became the greatest of all amulets — the symbol of the creation of all living things. They were reproduced in all the known minerals and ceramics and worn by all persons. On the base were engraved prayers, wishes, the names of kings and gods as well as privated persons. The Egyptians called it Kheper, meaning "I create or make." The Scarabs here are all of the XVIIIth Dynasty, except #24 which is of the XIXth.

- 19 Green-glazed pottery. Base shows the king as a man-headed lion trampling his foe, above are two symbols of "Good." In front is a "Hess," meaning the deceased, and its phonetic compliment. Superb condition. **PHOTO** (\$25.00–\$35.00)

C. Parker (Published). Size: 1.75 x 1.25 x 0.8 cm. Found at Abydos. Superb condition and a magnificent jewel. **VERY RARE. PHOTO** (\$200.00—)

28 **GEM SCARAB – Amethystine Quartz: (Type Hall A2).** Late XIIth Dynasty. Similar to above. From the collection of Prof. H. C. Parker (Published). Size: 1.35 x 0.97 x 0.66 cm. Found at Koptos. Superb cond. **RARE. PHOTO** (\$125.00—)

Gem Stone Scarabs are seldom engraved on their bases. Gold or electrum was affixed to the scarab's base and engraved with the name or titles of a pharaoh or god. Gem Scarabs were very expensive by the standards of the times and were thus limited to the nobles or the very wealthy. Only a small number have ever been found with the gold or electrum still intact, as tomb robbers removed and melted the metal for its value.

### ADDITIONAL EGYPTIAN ANTIQUITIES

- 38 **Cartonage sheet of the pectoral part of the mummy case.** These cartonage cases were made of linen strips with plaster between and treated with paintings on gesso as the wooden outer cases. These pectorals were kept in stock and the name or patron deity could be added as desired. This one depicts a man-headed and winged scarab holding two long feathers in its hind feet. There is a beaded collar or Usekh, depicted to give the deceased power to free himself from the bandages. There is a shrine in which sits the Goddess Maat and the Gods Osiris and Anubis, also a floral design. This dates from c. 1000 B.C. The condition is very good for this fragile material, well mounted under glass. Extremely rare and seldom offered. **PHOTO** (\$200.00—)

## ODD AND CURIOUS MONEY—ALVIN VAN LOAN GAINES COLLECTION

A recent acquisition of several fine objects of ancient art, including a fine collection of Jade from China and Pre-Columbian America, are to be included in this auction. For centuries, Jade was used as a medium of exchange, and therefore could be considered as a form of money.

**ASIA** — The Jadestones Nephrite and Jadite, were worked and appreciated by man from Neolithic times to the present. It cannot be chipped or flaked, but the early artisans fashioned it with sandstone and other abrasives. In China from the Dawn of Civilization, it has been considered a supremely fine stone to be used in religious and royal ritual objects. It was said to be a "product from Heaven," and charged with magic force when used as an amulet. Most Chinese Jade came from Khotan and Yarkand, now Sinkiang, a hazardous trip, which accounted for its high price, even in ancient China.

- 85 **Very dark green jade in the shape of the "Pu" or "Cloth Coin." Originating about 600 B.C. and extending to the end of the Chou Dynasty, c. 255 B.C. It was said that the Minters of cast coins first submitted a pattern in jade to the Emperor and Empress for their approval. This is one of those rare items of the Chou Dynasty c. 360 B.C., from Liang, capitol of Wei. Perfect condition. Very rare. 6.9 x 4.64 cm. and 2.4 cm. thick. PHOTO (\$200.00—)**

- 86 **Nephrite amulet of grayish-green jade.** This Jade or "Yu" in the Chinese metaphor is a symbol of nobility, beauty and purity. **PRE-COLUMBIAN** – In Pre-Columbian times the high native civilizations of Central and South America admired Jade or Chalchihuitl, as they called it. The source of this large supply is still in question, from the great numbers of Nephrite and Jadeite objects to be found in the museums of Mexico and South America the supply must have been large indeed. The Mayan influenced over 50,000 square miles in their Old and New Empires before the coming of the Europeans. The Old Empire may have started as early as 1000 B.C. and lasting to about 340 A.D. The New Empire, from which these fine art pieces belong, was started c. 340 B.C. The culture centers moved from Mexico to Guatemala and then back to Yucatan. These bits of small but fine art objects were fabricated by this remarkable people without the use of metal tools, as were the great temples now being cleared from the jungles to amaze the world today.

- 91 **Beautiful variegated green Jade figurine from Guatemala.** c. 35 A.D. or later. 6.14 x 2.7 cm. Perfect condition. Probably a deity without a head—dress. He is seated with arms crossed over chest and wears the usual large ear plugs. A lovely example of Pre-Columbia Jade. **PHOTO** (\$125.00—)

COMPLETE SET OF PANAMA PACIFIC COINS  
in  
THE ORIGINAL COPPER FRAME

756 1915 Complete Panama-Pacific Set, consisting of two \$50.00 gold pieces, round and octagonal; \$2.50 and \$1.00 in gold; and the 50c in silver. All mounted in the ORIGINAL COPPER FRAME.

The coins are all in perfect Mint State condition with the gold coins in full mint bloom and the silver half dollar a toned blue.

The Panama-Pacific Exposition was held in San Francisco in 1915, in celebration of the construction and opening of the Panama Canal. It was one of the largest expositions ever held in the United States Territories, and thirty-six foreign nations were represented. These coins were struck commemorating the Exposition and are among the most interesting of the United States issues.

These were the first Fifty Dollar gold pieces to be issued under the authority of the United States Government. Approximately 1,500 sets were struck, although only 483 sets were sold at the Exposition. The balance of the issue was remelted. It is doubtful that more than half of those sold still exist. This is probably the most popular and sought-after set of coins on the market today. These sets originally were sold for \$200.00 back in 1915. They have steadily increased in value, to a point where today when offered they fetch in excess of \$12,000.00. It is an excellent investment that certainly never loses its value. PHOTO ( )

**THREE-DOLLAR GOLD PIECES**

The \$3.00 gold coin was not struck until it was authorized by the Act of February 21, 1853, when the government reduced the postage rates from 5c to 3c. It was felt that the \$3.00 gold coin would influence more three-cent postage transaction.

The scarcity of the three-dollar coinage is due to the fact that only 5,300,634 gold coins were struck during the entire period of issue. This figure represents the **LOWEST TOTAL MINTAGE OF ANY REGULARLY ISSUED UNITED STATES COIN**. This, coupled with the fact that many of these lovely gold coins are found holed and soldered, due to their usage as jewelry items at the turn of the century, makes the availability of this rare coin extremely limited to the collector.

It is our professional opinion that the \$3.00 gold coin is a denomination that not only attracts the serious gold collector, but represents a series with a bright future. It is with understandable pride, therefore, that we can offer this fine grouping of three-dollar gold pieces. With the single exception of the 1875, we offer a complete set to be individually sold in order to give the largest possible group of buyers a chance to fill their needs for one of the most popular and sought-after series.

**PIONEER AND TERRITORIAL GOLD COINS**  
**THE GOLD COINAGE OF NORTH CAROLINA**

**Coined in 1831 to 1834**

**THE BECHTLERS**

The coins of North Carolina and Georgia, issued by the Bechtlers, Christopher and his son, August, are among the first of the private issues of gold coins in this country. Although it is reported that a fairly large quantity of these coins were issued, but like all similar coins, they soon found their way into the melting pot and are now very scarce and very much sought after by collectors.

- 1012    **5 DOLLARS CAROLINA, 134 gr. 21 carats.** Plain edge. Extra Fine with some original mint luster. Very Scarce. **PHOTO** (\$350.00–\$425.00)
- 1013    **1 DOLLAR CAROLINA, 27 gr. 21 carats. AUGUST BECHTLER.** Sharp Very Fine but with some dents. **PHOTO** (\$90.00–\$100.00)

**COINAGE OF AUGUSTUS HUMBERT**

**UNITED STATES ASSAYER, SAN FRANCISCO**

The coins bearing the name of Augustus Humbert were all struck by Moffat & Co. The coins bearing the stamp of Augustus Humbert and also that of the U. S. Assay Office were struck by authority of the United States Congress. Moffat & Co., having been selected to issue these coins under the supervision of a Government Official. Augustus Humbert was appointed United States Assayer, and under his authority and supervision the first \$50.00 gold pieces were issued.

- 1014    **\$10.00 1852. TEN DOLS. 884 THOUS.** About Extra Fine with some traces of mint luster still adhering about the letters. Variety with die breaks within the obverse legend UNITED STATES OF AMERICA. An attractive coin free of major nicks and dents. Deep yellow gold with some toning. Very Scarce. **PHOTO** (\$400.00–\$475.00)

**UNITED STATES ASSAY OFFICE**

**SAN FRANCISCO**

The coinage with the stamp of the U. S. Assay Office, San Francisco, was coined by the firm of Curtis, Perry and Ward, who were the United States Assay Contractors, with Augustus Humbert as United States Assayer. This firm was organized in 1852 after the firm of Moffat & Co. was dissolved.

- 1015    **\$50.00 1852 Octagonal, FIFTY DOLLS. 887 THOUS.** Eagle with shield and ribbon inscribed LIBERTY. 887 THOUS on scroll above, ends of scroll turned in; around UNITED STATES OF AMERICA FIFTY DOLLS., all within a beaded circle, around in smaller letters UNITED STATES ASSAY OFFICE OF GOLD SAN FRANCISCO CALIFORNIA. Reverse, engine-turned design with target in center. Milled edge. Very Fine. Although some planchet flaws, this specimen is free of the usual dents and nicks that generally prevail on coins of this type. A nice clean "slug". **PHOTO** (\$1,800.00–2,000.00)

Because the United States Assay Office was intended as a temporary branch mint and performed all the functions of a mint, the \$50.00 gold piece should be considered a type coin and thus fits into a type collection of United States gold coins.

- 1016 **\$10.00 1852 TEN DOLS. 884 THOUS.** Obverse similar to the "slug." The reverse depicts an oblong tablet on an engine-turned design; inscription, in four lines, UNITED STATES ASSAY OFFICE OF GOLD SAN FRANCISCO CALIFORNIA 1852. Sharp Extra Fine with three scratches near the right rim on the reverse. A lovely and very scarce specimen. **PHOTO** (\$450.00-\$500.00)

#### UNITED STATES ASSAY — MOFFAT

The last issue of the firm Moffat & Co. was this 1853 Twenty-dollar gold piece which is very similar to the United States Double Eagle of that period. This coin is presumed to have been struck after John L. Moffat retired from the mint.

- 1017 **\$20.00 1853 TWENTY D.** Liberty head facing left, date in large figures below; thirteen stars; MOFFAT & CO. on diadem. The reverse legend reads SAN FRANCISCO CALIFORNIA TWENTY D. Milled edge. Very Fine-Extra Fine, an attractive coin with a few light scratches on the obverse and a few minor bruises on the edge, which usually accompany this issue. Deep yellow gold toning. RARE. **PHOTO** (\$650.00-\$750.00)

#### GOLD COINS OF COLORADO

##### CLARK, GRUBER & CO.

The so-called "Pikes Peak" gold coins were issued during the Pikes Peak gold excitement, in 1860 and 1861. Clark, Gruber & Co. was the first company to issue coins which were actually coined from the gold dust from the Colorado gold mines. The coins were struck for the purpose to make it more convenient for the purchase of gold dust from the miners.

- 1018 **\$5.00 1860.** Liberty head, inscribed on diadem CLARK & CO., date below and 13 stars around. Reverse, eagle as on the regular issues of U. S. gold coins. Legend, PIKES PEAK GOLD DENVER FIVE D. around. Almost Uncirculated with original mint bloom. A very choice and desirable specimen. **PHOTO** (\$600.00-\$700.00)
- 1019 **\$5.00 1861.** Liberty with PIKES PEAK on diadem. Reverse, same type as the regular \$5.00 gold issues. Legend, CLARK, GRUBER & CO. FIVE D. Very Fine-Extra Fine, clean surfaces and free of the usual nicks. A choice and desirable specimen. Very Scarce. **PHOTO** (\$500.00-\$600.00)
- 1020 **\$10.00 1861.** Type and design as on the preceding lot. PIKES PEAK on diadem. Choice Very Fine with some original mint luster still evident. Nice clean surfaces. Quite difficult to locate and RARE. **PHOTO** (\$450.00-\$550.00)

Fractional Currency was first introduced in August of 1862. This was brought on due to the shortage of “Hard Currency” caused by the Civil War. In April of 1876, Fractional Currency was called in for redemption. Needless to say, it still has legal tender status.

LOTS 1942 - 2376

There is very little known about the following series of DECIMAL COINAGE, and due to this fact, we have not estimated many of the lots. We have listed many dates and varieties which Buttrey makes no mention of in his new catalog. Many of the lots are in high grade, and seldom offered for sale.

**MEXICO — REVOLUTIONARY — 1910–1917**

The Revolutionary period of Mexican history was a truly glamorous and interesting era. One can surely trace the activities of popular figures, such as Villa, Huerta, Madero and Zapata through this coinage. This collection is the finest ever offered at public sale. A Suriana Dos Pesos fetched in our September '70 sale \$6,100.00, which is the highest price ever paid for a Mexican silver coin. This certainly indicates the extreme interest and activity in Mexican Revolutionary coinage. There are several coins rarer than the Suriana in this section, and it may be several decades before these scarce coins are offered again. This is a once in a lifetime opportunity to acquire great rarities, and also more common coins in top condition.

 The Large Cincuentas were struck by roller dies at the Segovia mint resulting in frequent cracks in the surface, and sometimes a wavy appearance. This specimen is remarkably free from such defects. It, however, has been gilded, but only faint traces remain. This is the finest specimen of this coin we have seen. Choice Extra Fine.  
 “The Cincuentas would serve as a recognition of exceptional service rendered to the King by important persons and would serve also as a kind of currency that permitted its possessor to enjoy credit for acquisitions that he would pay later with common money. If the foregoing theory is someday confirmed, we may say that a Cincuentin was the Seventeenth Century equivalent of present-day credit cards, with a romantic touch of royalty.” (G. Calbeto). This great rarity in truly superb condition should cause some spirited bidding around the \$5000.00 area. **PHOTO** ( )

**COINS OF THE NETHERLANDS – Recovered from the Dutch East Indiaman “DE LIEFDE” wrecked off Out Skerries near the Shetland Islands on November 7th, 1711.**

The condition of the coins is a matter of interest. They have undergone a chemical reaction during their two and a half centuries under the sea and have acquired a dark grey patina. Although, not a numismatist's dream, they are not unpleasing and moreover, a distinctive certificate of origin.

For further information concerning the coins of this wreck, consult the Glendining & Co. sale of Oct. 28th, 1969.
